Dear Mike,

Atlas Minerals requests an amendment to the Four Corners Mining and Reclamation Plan on file with the Utah Division of Oil, Gas, & Mining.

The proposed amendment would add an additional 2.2 acres of additional disturbed surface area to the original plan raising the total disturbed acreage to 34.0 acres. The additional acreage is needed for a waste rock stockpile expansion at the Four Corners #6 Mine (see enclosed map). All mining and reclamation activity will be in concert with the Four Corners Mining and Reclamation Plan.

Should you have any questions in regards to this amendment, please contact me. Thanks very much.

Sincerely,

*John Hunerjager*
